8.20 CGPA

EXPERIENCE

Ascenso Tyres

Feb. 2024 – Present

Management Trainee - IT

- Led the end-to-end BI implementation, automating manual processes with Tableau dashboards for sales, aging, and backorder. Crafted BRD/FRD, resulting in a 50% reduction in reporting time and enabling data-driven decision-making.
- Optimized procurement processes by analyzing data to evaluate turnaround times from indent to goods receipt, uncovering and eliminating bottlenecks to enhance efficiency.
- Evaluated actual spend against budget, and developed a Tableau dashboard to monitor overspending, empowering the organization to make informed budgetary decisions.
- Spearheaded market research and end-to-end implementation for EUDR compliance, crafting the project plan and coordinating between technical and business teams to ensure regulatory adherence.

The Civilization Project

May 2023 – Jul. 2023

Summer Intern

- Gathered requirements from the stakeholders and developed the company website using WordPress.
- Created engaging videos for the startup's social media platform using video editing skills.
- Analyzed data to suggest effective content strategies for social media.
- Contributed to course strategy development and analyzed competitors for better decision-making.

Bitwise

Dec. 2020 – Jan. 2023

Programmer

- Developed Abinitio graphs, psets, xfrs for the client Discover Financial Services, and used SQL for data extraction and ETL purposes. Scheduled Abinitio jobs using Tivoli scheduler.
- Utilized Apache Spark and Python for ETL processes, scheduling jobs on Airflow to cut data processing time by 30%. This efficiency improved business analysis and strategy formulation.
- Developed a Data Quality Framework incorporated in various ETL applications for Global Payments.
- Followed Agile practices during SDLC and contributed to Scrum and stand-up meetings.
- Collaborated with peers in design discussions for various ETL frameworks and participated in peer-to-peer code review sessions.

TECHNICAL SKILLS

Programming Languages	Python, SQL
Tools & Technologies	Abinitio, Apache Spark, Airflow, Tivoli Scheduler, Control-M Workload Automation, AWS S3, GCP, GitHub, JIRA, MS Excel, Tableau, Epicor ERP, WordPress
Methodologies	Agile, Scrum
